

4.0 Loco, Carriage & Wagon Workshop – Dahod

After tapering off the workload of POH of steam locomotives, Dahod workshop started several new activities such as conversion of wagons to container flats, rehabilitation of BOXN wagons, POH of electric locos, POH of MEMU etc.

The MTR of electric locomotives was started in the year 2003-04 with the first locomotive being turned out on 07/01/2004.

Dahod Workshop has undertaken first time assembly of new WAG7 locomotives as per Railway Board's instructions as assistance to CLW. During this year, **7 WAG7** locos after assembly have been turned out from DHD Workshop.

Railway Board decided to focus on following core activities:

1. Mid Term Rehabilitation of electric locomotives (MTR)
2. Rehabilitation of wagons.
3. POH of MEMU coaches.
4. New loco Assembly (WAG-7 Locos)

Performance of LC & W Workshop/DHD

SN	Activity	Target	Cumulative out turn 2012-13
